Informed and Voluntary Consent for Treatment

The purpose of my participation, as a client, in the Idaho publicly funded substance abuse treatment program is to acquire knowledge, skills and attitudes supportive of a sober and more satisfying lifestyle. In addition to the potential positive outcomes likely to occur as a result of my participation, the following reasonably foreseen risks may occur, as they would in any other alcohol and drug treatment program: breach of confidentiality; negative reactions of group members; emotional stress from requirements of group interaction, self-disclosure; stress to relationships resulting from open discussion of issues, past traumas; and, stress to relationships resulting from participant behavioral changes, positive or negative, need to attend recovery support meetings, spend time in group and doing assignments.

Providers will take steps to minimize or protect participants against potential risks by adhering to standards of confidentiality found both in Federal and State Code, and by informing and verifying client understanding of group rules. And, by intervening in and guiding appropriate disclosure, confrontation and resolution in group and in family conflict. Providers will assist clients in accessing sober support services and self-help groups where acceptance and stress reducing support is available. _____ Client Initials
